

NEW Emmett Sanitation Recycle Depot

- Located at 2200 S. Boise Ave., Emmett, ID

The depot sits on the front portion of Emmett Sanitation's property to the east side of our gated facility. You enter the depot loop to the left just inside our operations yard entrance. The depot is open to residents of both Gem County and the City of Emmett.

- In order to launch a basic program, we will limit the material accepted to **Cardboard and Aluminum only**. We may expand the program in the future depending on the factors we discussed in our last meeting.

- The depot will be open **Monday - Friday from 8am - 5pm**. As we monitor the depot over time, we may modify those hours depending on the overall activity.

- It is most helpful if people break down their cardboard and smash the aluminum cans prior to dumping them in the recycle bins (cooperation is much appreciated).

- No trash, electronics waste, household hazardous waste or other illegal dumping allowed. There is a surveillance camera that will help us monitor this type of activity.
